

CENTRAL IOWA KENNEL CLUB PRESENTS
K-9 REPRODUCTION SEMINAR

Guest Speaker H. T. "Tom" Holcomb, DVM

Dr. Holcomb biography:

- Graduated Iowa State University in 1965 with DVM degree
- Practiced in Bagley, IA for four years, primarily large animal; St. Paul, MN one year, small animal; presently in Adel, IA
- Current practice is small animal only, with emphasis on hunting dogs, canine reproduction and wildlife rehabilitation
- Trained in semen collection and freezing by International Canine Genetics (ICG)
- Dr. Holcomb was the third semen freezing center opened by ICG, in 1989 (ICG was later bought out by Synbiotics, Inc and Dr Holcomb is now associated with Synbiotics, Inc.)
- Contributor to Gun Dog Magazine for the last 27 years, writing a veterinary clinic question and answer column
- Dr. Holcomb currently has three Beagles, a Lab, and a Pointer

The seminar will cover the evaluation of the estrus cycle of the bitch and use of that information to time various breeding strategies.

Also semen collection and evaluation of the dog and options for use of the semen collected.
